

## Wyngate Trash Can Storage Policy (June 1, 2018)

While it is perfectly normal to see garbage bins lining the street on trash day, South Jordan City requires residents to bring them in by the end of the day after trash has been picked up. Most homeowners at Wyngate are responsible about pulling their bins in after the trash is picked up.

The HOA Board has adopted the following policy when storing trash bins on the property. This Policy will take effect June 1, 2018.

Residents are asked to store their trash bins within their own fenced yard or in the garage and away from the view of other residents. Resident should only use their own trash bin and not place garbage in another resident's trash bin without permission of that resident. Residents not in compliance will be notified in accordance with the already established fine policies and procedures.

The intent of the policy is to increase curb appeal, minimize identity theft of materials that might be in the trash bin.

Thanks for your cooperation.
