## Why a Property Management Company?

The main purpose of the property management company is to help the community and the board fulfill the goals of the community while protecting the property both physically and financially. Welch Randall (WRPM) helps with payment of bills, reconciliation of bank accounts, legislative updates for CC&R's and rules, enforcement of CC&R's, preparing vendor bids, obtaining maintenance or other bids, and enforcement of vendor contracts. All bills and projects are approved by the HOA Board members first.

While the decision-making powers for the community rest with the community and the HOA Boards, we request that phone calls or emails go directly through WRPM first so that all information necessary to the situation or problem can be provided to the board in an organized manner. The HOA Board's role is a voluntary role and they have limited time. The property management company helps manage the day-to-day needs of the community which allows the HOA Board members to best utilize their time by focusing on key decisions that need to be made for the community.
